

# Test 1 – Dictation - Text

## My birthday

Yesterday was my birthday. Of course I had a birthday party. I made invitation cards for all of my friends. My mother baked a chocolate cake for us. There were twelve candles on it. I was happy when my friends were at the door. They had so many presents for me. In one present there was a film and in another one there was a biro. I liked all of them. In the afternoon we played football. My team won the match. It was already dark outside. After the match we watched the film. When the film was over it was very late and my friends had to go home. That was a great day.
